

SACC Report – Guyson Scottish Sprint and Hillclimb Championship

I recently took over as Chair of the club and as such have spent the winter familiarising myself with the new role although I have sat on the committee for over 20 years taking the helm is a whole new experience.

The winter also saw the championship embroiled in an appeal regarding the scoring of the speed results which had been altered following the departure of the previous chairman, this has now been dealt with having taken many unnecessary hours to sort out.

This year the championship is again in good health although we have lost a few entries to folk wishing to travel south and compete in the British Championship we have encouraged newcomers (who get free entry the first year) to get on board.

The club remains in good health financially and with the remit to improve the sport has contributed to several of our hosting clubs safety plans.

The 2017 season is set to kick off next month more details on <http://www.sshc.org.uk>

This year's championship has attracted 110 entries through the 4 Divisions up by 12 on last year.

The split is 43 Road Car (Last Year 30)

22 Modified (26)

41 Competition (34)

4 Classics (8)

We have got a fantastic total of 21 newcomers as opposed to last year's 8

Tim Thomson
